

# Flip-to-side Mount for RICO MICRO

# AC55

## ADM Quick Detach Picatinny Rail Mount for MICRO Series

The AC55 is a collaborative development between iRayUSA and American Defense Manufacturing, engineered to expand the mounting versatility of the RICO MICRO series (primarily the RH25V2, but also compatible with the RL25V2 and original RH25 models). This mount is designed to support rapid transitions between helmet-mounted observation and weapon-mounted thermal imaging, using the AC52 "Pictail" interface.

Built from precision-machined aluminum with steel latches and hardware, the AC55 is designed for rugged field use. Quick-detach picatinny mounts on both sides of the assembly allow for rapid attachment and removal.

In a weapon-mounted role, the AC55 positions the RICO MICRO in front of a day optic—whether a holographic sight with magnifier or an LPVO—supporting co-witness heights of 1.93" and 2.05". The RH25V2 can be collimated for precise alignment with the host optic, making this setup highly effective in a thermal clip-on configuration.

Usable in two hinge configurations (short or long), the AC55 allows the user to select fold direction and lever placement to suit their platform and shooting preference. Reliable, modular, and field-ready—the AC55 brings added flexibility to one of the most adaptable thermal optics on the market.

## AC55 PRODUCT SPECIFICATIONS

**ITEM NUMBER:** IRAY-AC55

**MAP:** \$349

**UPC:** 850048751477

**WEIGHT:** 4 oz.

**MATERIAL:** Aluminum Alloy

**FINISH:** Type 3 Hardcoated

**WARRANTY:** 5 Years

**COMPATIBILITY:** MICRO Series with a Pictail mount (Part: AC52)
